

## COMPENG 2SH4 Project – Statement of Contribution

Your Group Number

\_\_\_\_\_ Slytherin \_\_\_\_\_

Your Name

\_\_\_\_\_ Shwethan Sivapalan \_\_\_\_\_

Your Team Member's Name \_\_\_\_\_

Arush Poopalasundaram \_\_\_\_\_

**You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:**

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.

- Iterations 1A, 2B, 3, Bonus

2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMPENG 2SH4 project.

- Iterations 1B, 2A, 3, Bonus

3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.

What was working was that we had good communication when errors occurred, we talked it through and fixed them as effectively and quickly as possible. We split the work accordingly and worked on the bonus and iteration 3 fairly together. We didn't like git pull and push when working in the files together as sometimes it would override them.
